Amelia Stevenson is a single dog owner living and working in the city of Chicago

Amelia is constantly overpaying for dog food and finds it hard to get to the store to buy more for her puppy.

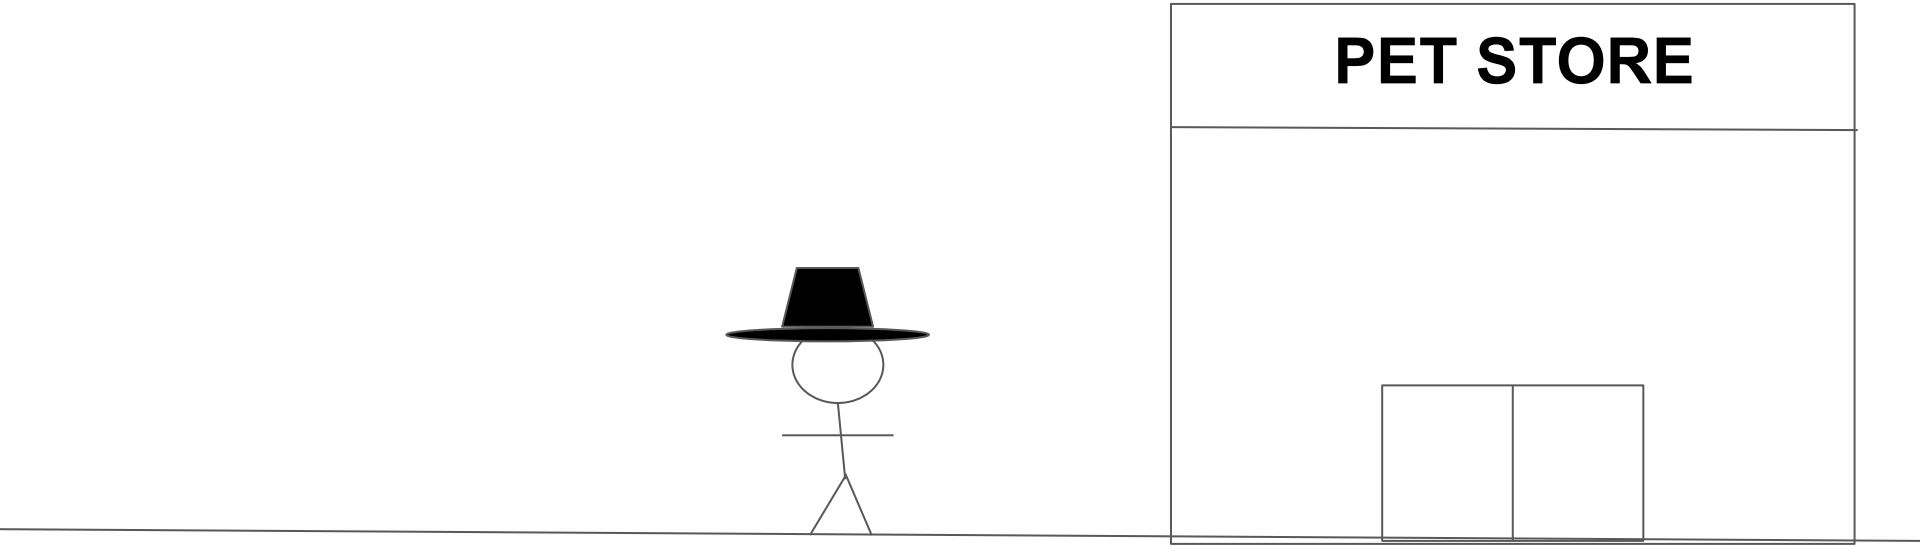
GET IT ON
Google Play

She then downloads our app to help her with this problem.

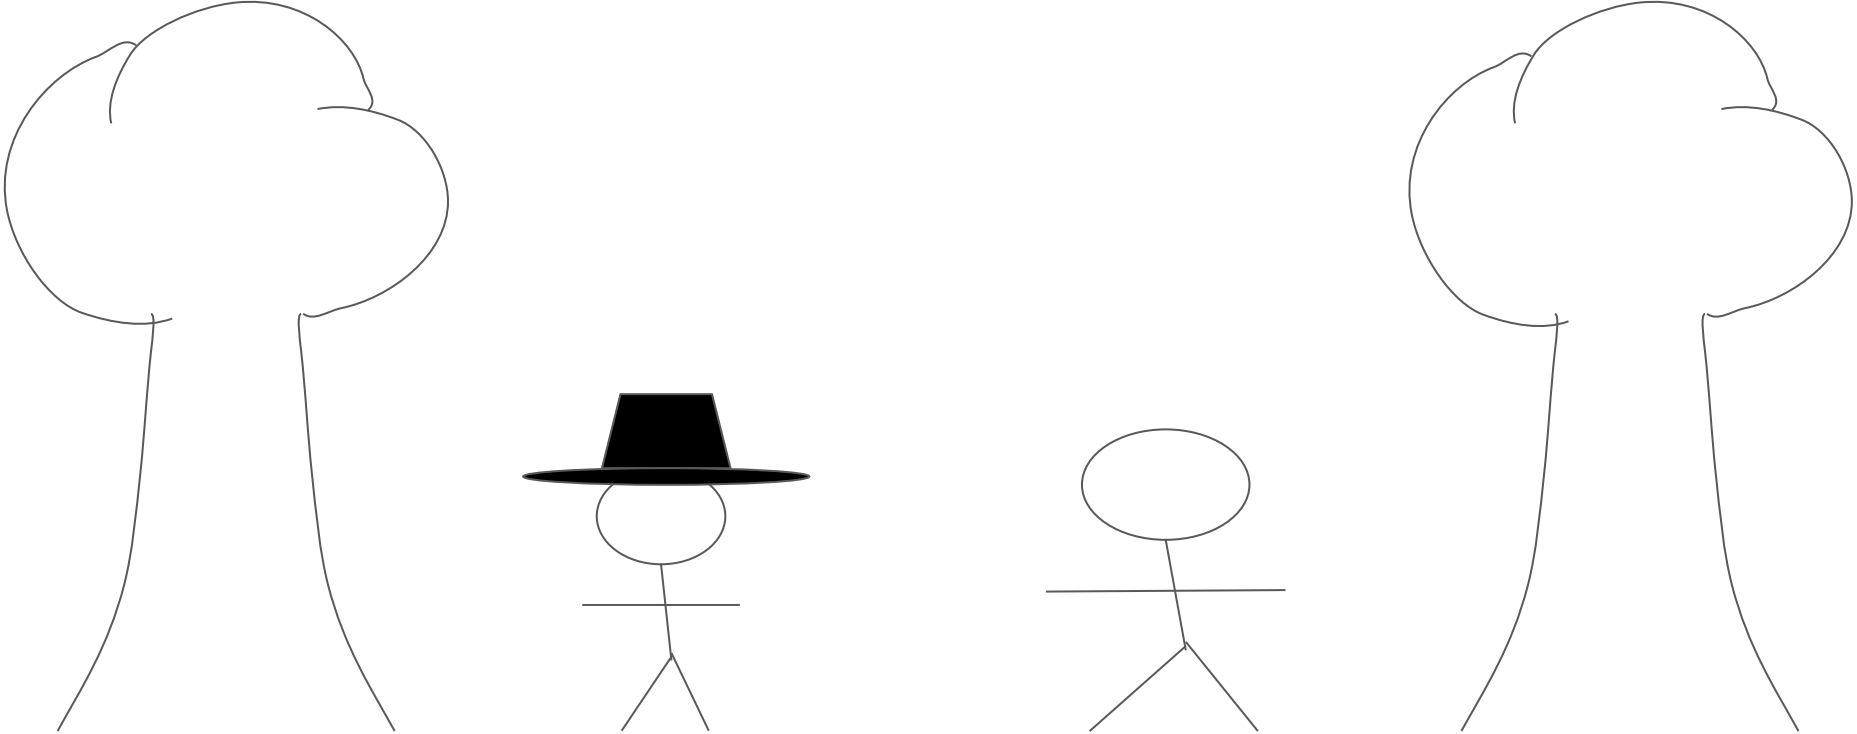
Using the app, Amelia can compare prices of dog food and find the best type/ brand of food specific for her dog.

Amelia also takes advantage of the delivery options our app offers and uses the tool to show her where she can buy her specific brand closes to her.

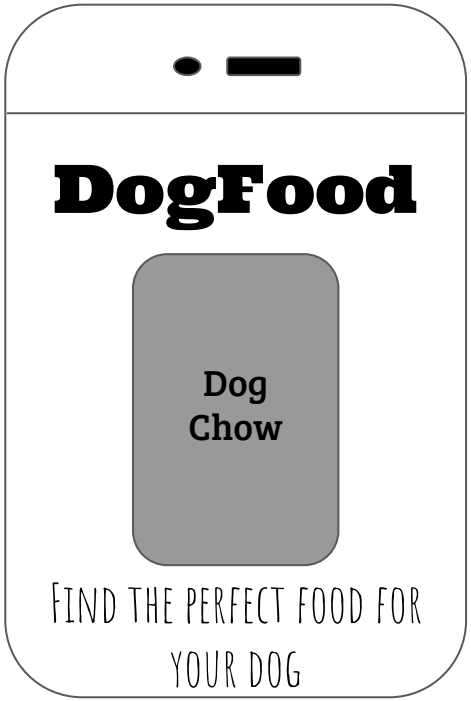
Now Amelia is happy because she is saving money and time. Her dog is also happy because it is getting the correct nutrients from the right type of food



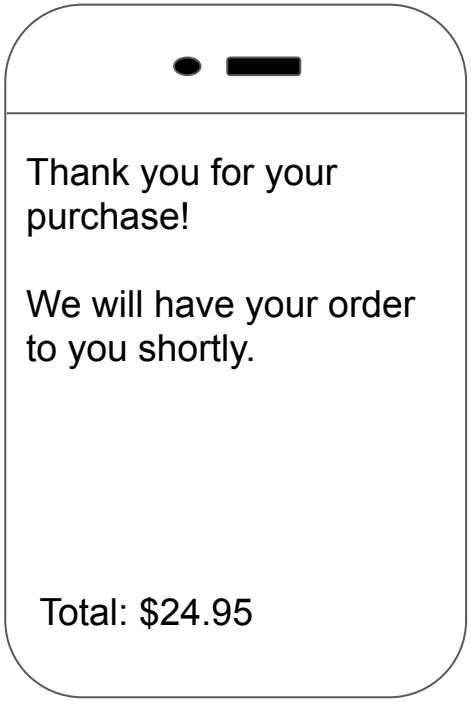
Jacob goes to Petsmart and over pays for food that he doesn’t think is very good for his dogs. He looks and asks around for a better way to get dog food.



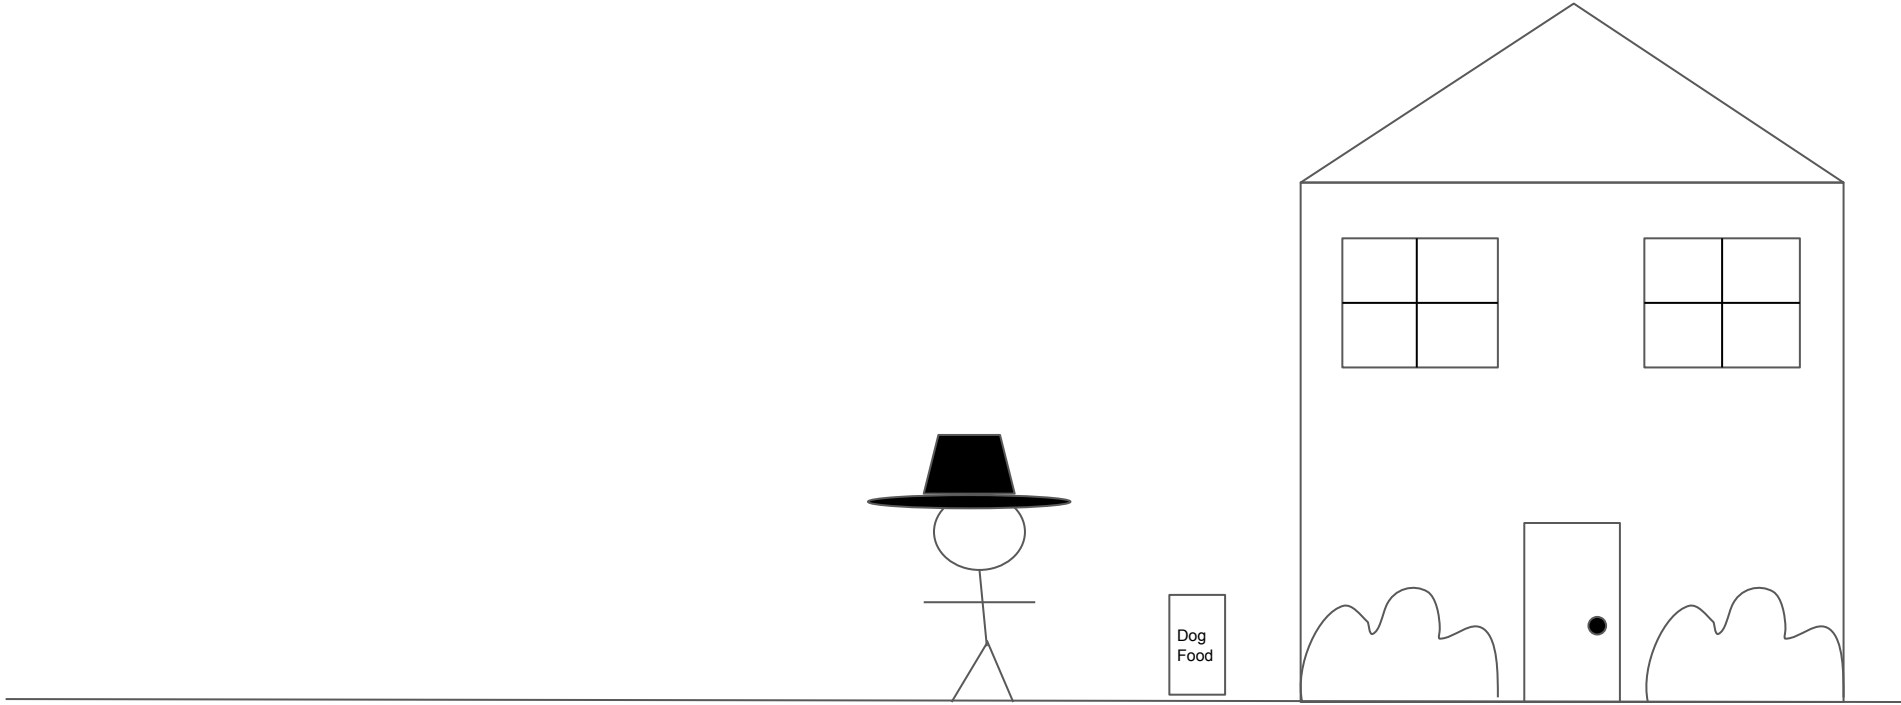
One day, Jacob and his friend are walking through the park and Jacob mentions his problem of not being able to find the right dog food. His friend mentions an app called DogFood. Jacob says he will try the app.



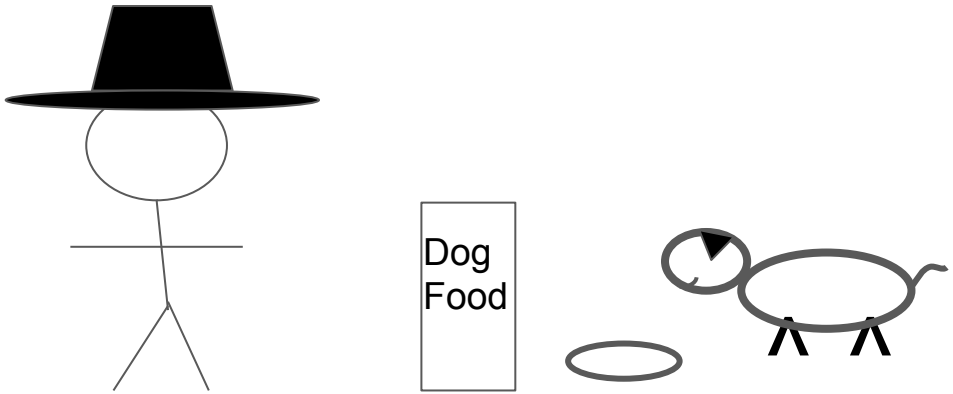
Jacob finds the right dog food for the right price.



Jacob purchased the perfect dog food from the app and shipped it to his house.



The dog food quickly arrived and Jacob was pleased with his purchase.



Jacob and his dogs were happy with the new dog food. Jacob began recommending it to his customers.

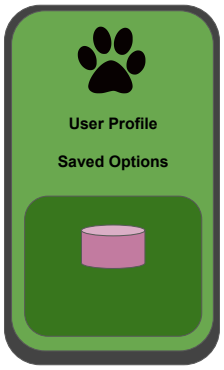
Tim has gotten his first dog, and finds himself unsure of which dog food would be the correct choice. He feels overwhelmed at all the different options, prices, and sizes.

Tim's partner finds an app that could help find the right food for their new puppy. They download the app in order to help Tim find what they need.

Tim's and his partner use the app to find the right dog food and where to buy it.

Tim and his partner pick out a food that works for their dog's dietary need and their price range. From their options, they order the food for pickup at a local pet store.

Without having to deal with the hassle choosing food at the store, Tim buys the food he wants and leave



Tim likes the dog food he bought, so he saves the food for easy future purchase.
